

LEMON DISINFECTANT NEUTRAL CLEANER

LEMON DISINFECTANT NEUTRAL CLEANER is a concentrated formulation designed to provide effective cleaning, deodorization and disinfection of hard, non-porous, inanimate, environmental surfaces like floors, walls, metal, stainless steel, glazed porcelain, and ceramic tile, plastic surfaces, vinyl, chrome in facilities that include bathrooms, shower stalls and doors, bathtubs, toilets, cabinets, table chairs desks, doorknobs, garbage cans, telephone hospital beds, traction devices, MRI and CAT machines, examining tables, scales, paddles, wheelchairs, baths and whirlpools.

Description

LEMON DISINFECTANT NEUTRAL CLEANER is a single-step Disinfectant, Germicidal Cleaner and Deodorant designed for use on all washable surfaces involved in institutional and commercial sanitation requirements and maintenance programs in hospitals, nursing homes, healthcare clinics, schools, food processing plants, food service establishments, office buildings, lodging properties (hotels, motels, resorts and retreats), veterinary hospitals, as well as fitness clubs, athletic and recreational facilities where housekeeping is of prime importance in controlling the hazard of cross contamination. This quat-based product functions effectively as a pseudomonacidal, staphylocidal, salmonellacidal, bactericidal, fungicidal, mildewstatic and virucidal cleaner. **LEMON DISINFECTANT NEUTRAL CLEANER** is effective against the following pathogens: HIV-1 (AIDS virus), *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Escherichia coli*, *Salmonella choleraesuis* and SARS-co V-2, the cause of COVID-19*. It is an **E.P.A. registered cleaner disinfectant, U.S.D.A. and N.S.F. approved A-4, C-1**. General disinfectant dilution ratio of **LEMON DISINFECTANT CLEANER** is 1:32. Although **LEMON DISINFECTANT CLEANER** is a concentrate, dilution ratios, surface use directions and application process vary. For more specific details, see product label and SDS sheet. Secondary label artwork is available for customer use. A limited quantity of secondary labels (e.g. spray bottle labels) are also available for customer use. This neutral pH cleaner removes dirt without attacking the surface material to leave a light and fresh lemon fragrance behind. Non-dulling to floors. Meets OSHA Bloodborne Pathogen standards for HIV, HBV and HCV.

Directions

Use **LEMON DISINFECTANT NEUTRAL CLEANER** diluted according to all directions and precautions on label and in Safety Data Sheet (SDS) before using. **Dilution: 1:32**. Simply add **four ounces (118.3 mL)** of **LEMON DISINFECTANT NEUTRAL CLEANER** per one gallon of water (3.785 L). **LEMON DISINFECTANT NEUTRAL CLEANER** can be used to make wipes by pouring diluted liquid into ScottPure Critical Task Wipers container.

**Note: SARS-CoV-2 is a new virus. Such pathogens are often unavailable commercially for laboratory testing. While no product currently exists that has been tested against SARS-CoV-2, the cause of COVID-19, according to EPA published guidelines, the above mentioned product is expected to be effective based on its "demonstrated efficacy against a harder-to-kill virus".*
